Date of Submission	

1. Problem Statement & Objectives – 5 Marks

Problem Statement

Describe the problem addressed by the application and the objective.

2. Architecture – 10 Marks

2.1 Application Flow

Show how the user navigates through the application.

Diagram:

Insert Application Flow Diagram Here

2.2 Technologies Used

Provide the technologies used and its purpose

3. Practical Implementation – 15 Marks

3.1 Features Implemented

Feature	Description
Home/Dashboard	
Bus Routes	
Pickup Points	
Search/Filter	
JavaScript Interaction	
Responsive Design	

3.2 Source Code

Provide the important sections of your source code and explain their purpose.

HTML:

Insert relevant HTML code here

CSS:

Insert relevant CSS code here

JavaScript:

Insert relevant JavaScript code here

3.3 Project Execution

Briefly explain how the application works when executed.

4. Output Screenshots – 10 Marks

Include screenshots of the working application.

Screenshot 1 – Home/Dashboard

Insert Screenshot Here

Screenshot 2 – Bus Routes

Insert Screenshot Here

Screenshot 3 – Pickup Points & Timings

Insert Screenshot Here

Screenshot 4 – Search/Filter

Insert Screenshot Here

Screenshot 5 – JavaScript Interaction

Insert Screenshot Here

Screenshot 6 – Responsive View
